WHAT AN ENTHUSIAST!

Our very own 'yachtie', Richard Goodenough, with family dutifully in tow, trekked halfway around the globe just to watch the start of last December's renowned Sydney to Hobart boat race - recognised as one of the most demanding of ocean races.

Miraculously the organisers managed to clear Sydney Harbour of the 3000 spectator boats in time for the 124 competing boats to cross the start line.

The eventual winner, Nicorette, (pictured here at the start) had to fight some very stormy seas to be first in to Hobart. The Solent will seem pretty lonely and tame for 'Skipper Richard' in comparison!

SHARON DUNMORE ONE WOMAN AND HER DOG

Sharon, who joined Goodrich just in time to miss Newsletter No.7, is pictured with her 17 week old pedigree long-haired German Shepherd pup, Bodie. Looking after Bodie and her other dog, black Labrador Roxy, combined with being mum to four year old daughter Jamie and working full-time at Goodrich certainly keeps Sharon both very fit and very busy. Before joining Goodrich, Sharon worked for Motionworks and Silverstone Circuit.

ADAM GREEN HOME GROWN TALENT!

Adam joined Goodrich last September after passing 'A' levels and is now working towards RICS Quantity Surveying and Construction Management qualifications attending Nottingham Trent University on day-release. A real 'action-man' he has recently completed a rally driving course at Silverstone and finished 39th in a field of no less than 200 starters in a quad bike endurance race in the West Country.

Goodrich is committed to recognising and bringing new, young talent and skills into the company - Adam has already made his mark and is becoming a much valued member of the team.

GOODRICH STAFF CHRISTMAS 'BASH'

Pictured here are double-trouble Sue's Coldridge and Sharon Dunmore enjoying (!) themselves at the Goodrich staff Christmas 'bash' in Milton Keynes. We are offering a bottle of bubbly for the best caption to reach Sue Coldridge by close of play on Thursday 28th April 2005. All entries will be considered - but be prepared to be identified and published in September's edition of Mileage.
